GN Engineering's unmatched combination of knowledge, skills, experience and customer commitment sets it apart.

About Us

01

About Us

GN Engineering Nigeria Limited, a subsidiary of GN GROUP Limited is a world class leading Engineering, Procurement, Construction, and Installation (EPCI), and Project Management Consultancy Company delivering high quality services with time bound to help clients meet and exceed their daily growing challenges. Established in 2014, GN Engineering Nigeria Limited deliver world-class services to our clients striving at all times to add value to the activities of our customers and partners.

As a trusted partner, GN Engineering offers innovative solutions that go beyond simple compliance with regulations and standards, reducing risk, improving performance and promoting sustainable development.

GN Engineering has established a solid reputation for delivering high-quality and innovative engineering and construction solutions across a wide range of sectors such as oil and gas, infrastructure, telecommunications and commercial developments.

In today's highly competitive market, GN Engineering's unmatched combination of knowledge, skills, experience and customer commitment sets it apart. GN Engineering uses a flexible approach for building value to meet the diverse needs of each client. This approach provides a disciplined, client-focused framework that encourages and empowers management, stakeholders and employees to develop innovative solutions for complex challenges and to constantly improve their work environments and work processes.

Our vast knowledge base, built on GN Engineering's over years of project expertise, promotes collaboration and provides a systematic way to capture, share and reuse the knowledge to provide cost-effective, intelligent solutions in a timely manner. GN Engineering sets stringent standards for global safety practices, both at project work sites and in all office environments.

OUR SERVICES INCLUDES:

1. Engineering Solutions Services: GN Engineering provides comprehensive engineering services, including civil, structural, mechanical and electrical and instrumentation engineering from FEED, Detailed Engineering Design (DED) and Construction Management.

- Civil Engineering
- Structural Engineering
- Mechanical Engineering and
- Electrical and Instrumentation engineering from FEED, Detailed Engineering Design (DED) and Construction Management.

The company excels in designing and implementing efficient and sustainable engineering solutions tailored to meet the specific needs of each project.

2. Construction Services: GN Engineering offers a wide array of construction services encompassing;

Civil Construction Services-

- Building
- Roads
- Bridges
- Concrete Foundation
- Oil/Gas Well Location
- Shore Protection
- Jetties
- Dredging of Canals
- Piling construction and infrastructure development.

Our Services

03

Mechanical Construction Services-

- Welding and Fabrication
- Equipment/Vendor Package installation
- Process Piping
- Pipelines
- Storage Tanks
- Bares
- Vessels
- Steel Bridges
- Drilling Platforms
- Communication Tower
- Structural/Workshops
- Warehouses
- Shelters etc.

Electrical & Instrumentation Construction Services-

- High and Low Voltage, underground and overhead transmission and distribution systems
- **Industrial electrical installation**
- Street, premises and flood lighting system
- Substation
- Electrical Protection and control installation- Relays, Motors, Switchgears etc.
- Electrical equipment/Industrial Machines Installation
- Installation of Control Systems

3. Procurement and Supply Services: GN Engineering offers a wide range of Local and International Procurement and Supply Services of Products and Materials to meet client's expectations and project delivery deadline.

- Supply of electrical and instrumentation equipment and spare parts
- Supply of mechanical equipment and spare parts
- Supply of industrial equipment and spare parts
- Price Verification
- Expedite procurement
- Specification enquiry scrutiny

4. Project Management Consultancy Services: GN Engineering takes pride in its robust project management capabilities, ensuring seamless coordination, timely delivery and cost-efficient execution of projects. The company's team of robust workforce of Project Managers, Team Leaders, Engineers and other multi-skilled technical resources oversees every aspect of the project lifecycle, from planning, procurement to construction and handover. LIST OF COMPLETED/ON-GOING PROJECTS				
S/N	JOB DESCRIPTION	LOCATION	CLIENT	YEAR
1.	Construction of 30cm Floor paving for warehouse	Onne rivers state	ICTSI, FZE Onne	2022
2.	Construction of 3,325 square meters warehouse	Onne rivers state	ICTSI, FZE Onne	2024
3.	Hybrid 200kwh inverter & lithium battery installation	Oweri Imo state	CBN	2022
4.	Construction of workshop	Onne rivers state	ICTSI, FZE Onne	2022
5.	Construction of Drainage Curvet	Onne rivers state	ICTSI, FZE Onne	2023
6.	Installation of Automated hydraulic Bollard's project	Abuja	AMCON	2021
7.	Installation of industrial High Light Mast	Onne rivers state	ICTSI, FZE Onne	2021
8.	Clearing/Levelling and Surface Treatment	Onne rivers state	ICTSI, FZE Onne	2021
9.	Construction of 4.5km Umana Ndiagu road	Enugu State	Vaprics Global Ltd	2011
10.	Construction of 3.7km Ukwo-QIT flowline	Akwa Ibom	System Energy Ltd	2015
11.	Fabrication of 5000bbl storage tank	Agip Yard	Ndu Steel Ltd	2017
12.	Construction and installation of Pre-cast pile foundation	Etelebu, Bayelsa State	System Energy Ltd	2012
13.	Design and construction of generator power house	Onne rivers state	ICTSI, FZE Onne	2022

11

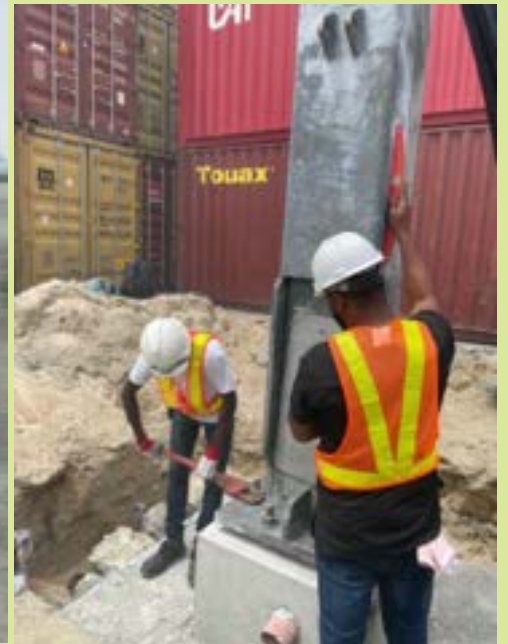

Installation of Automated hydraulic Bollard's project and Hybrid 200kwh inverter & lithium battery installation

Containerized Hybrid Inverter Solutions

12

ISPS Mesh Fence Installation 2 and Installation of industrial High Light Mast

Installation ISPS Mesh Fence Project 1 and Clearing/Levelling and Surface Treatment

13

Construction of Drainage Curvet and Company Mac Mixer Truck

GNE Badging Plant and Service trucks

14

Construction of 3,325 square meters warehouse and Construction of workshop

15

Construction of 30cm Floor paving for warehouse and Drainage Curvet

16

Erection of steel structures for warehouse

Construction of flow line

17

Construction of crude tank foundations

18

Construction of crude tank

Electrical Power Supply Installation

19

20

Site Work Welding and Fabrication
